

B-3342 - B-3350
43-3 E. Hamburg St. (South side)
Baltimore, Md.
Private access

1839-1855

The entire south side of the unit block of E. Hamburg St. (except for 3-7 E. Hamburg St., west of Patapsco St.) is improved with groups of two and a half story, late Federal style brick houses built in the late 1830's and early 1840's by John S. Gittings and several other local carpenters to whom he sold lots. 3-7 E. Hamburg St. are two story, two bay wide gable-roofed brick houses built in the 1850's for working class tenants. They are quite similar to other two story houses lining Patapsco St. just to the south of these houses. A number of houses on this side of Hamburg St. are currently being renovated.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This two story, two bay brick house with gable roof was built in the 1830's and formed part of a group of such houses extending along this side of Hamburg St. The house has been covered with formstone.

The house is two and a half stories in height, about 13' wide, and occupies a lot 78' deep. The house is two rooms deep and there is a two story high, three bay deep rear addition. The house is constructed in running bond but the facade has been covered with formstone. The steeply-pitched gable roof has a dormer window on both the front and rear roof gables. There is a double rectangular chimney located on the west side of the front roof gable and a double hooded chimney located on the west side of the rear roof gable.

Although the original treatment of the door and window lintels and sills has been hidden by the formstone covering, it is apparent that all of the openings had flat lintels, probably splayed brick. All of the window openings are filled with 1/1 double hung sash. A Mission-style door is set beneath a single light transom which has been covered with siding. The house sits on a low basement, the entrance being reached by one stone step.
